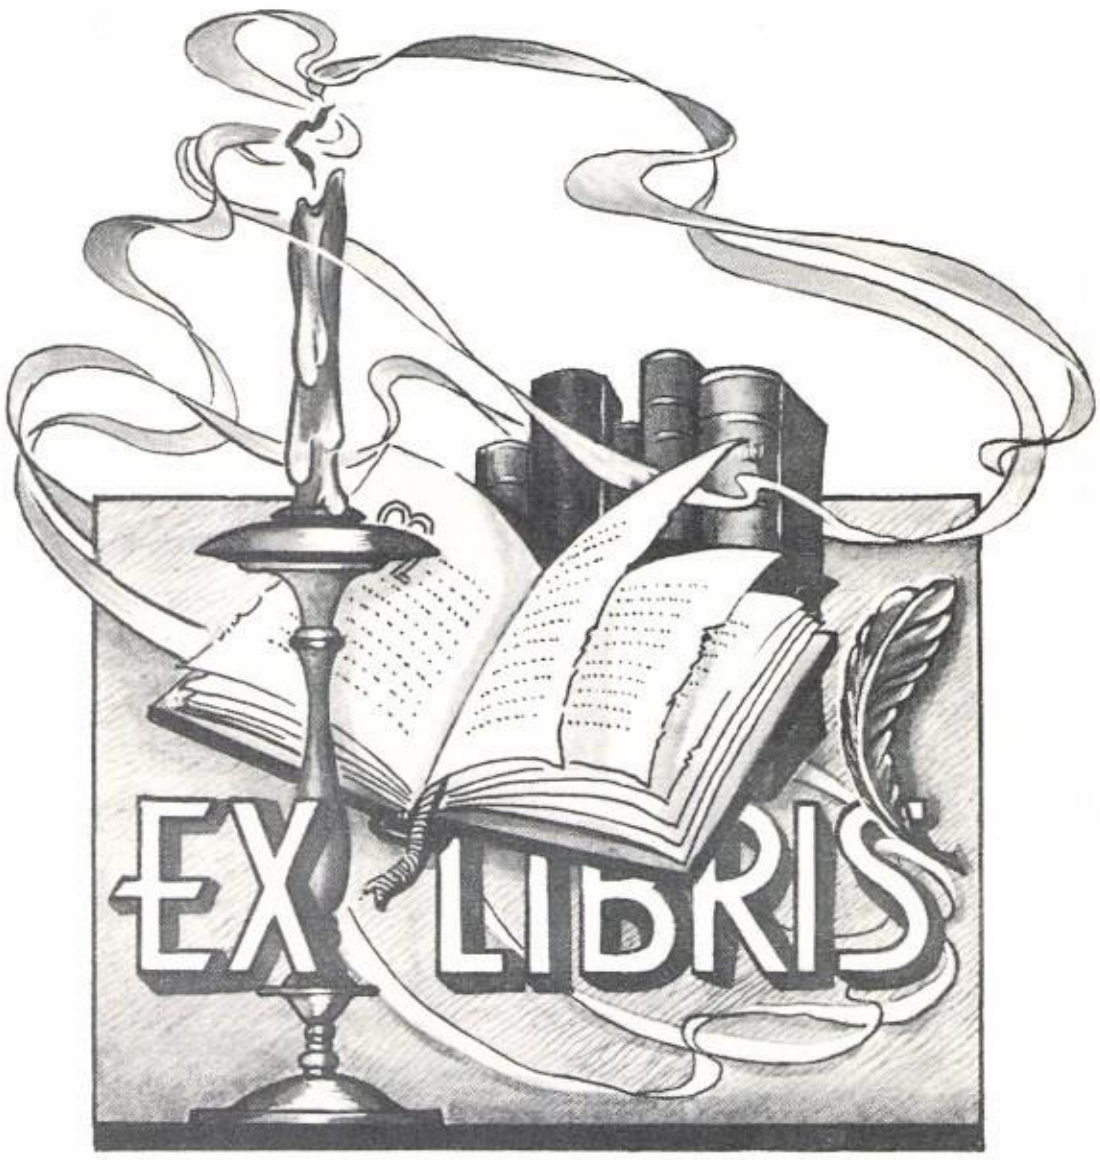
ECHOES of M. H. S.

1949



EX LIBRIS

DEDICATION

We, the Senior Class of 1949, dedicate this edition, the "Echoes of M. H. S.," to Kenneth Miller.

Kenneth Miller entered High School with the class of '49 in '45. During those past three years, Kenneth took the same subjects as did his Classmates and was a member of the Cavemen Basketball squad.

Kenneth Miller was born June 15, 1931 in Marengo.

He started to school when he was six years old and spent his younger years much the same as any other small boy.

He graduated from Elemetary School in 1945 and entered High School in 1945 and 1946.

His favorite sports were basketball, baseball, and hunting.

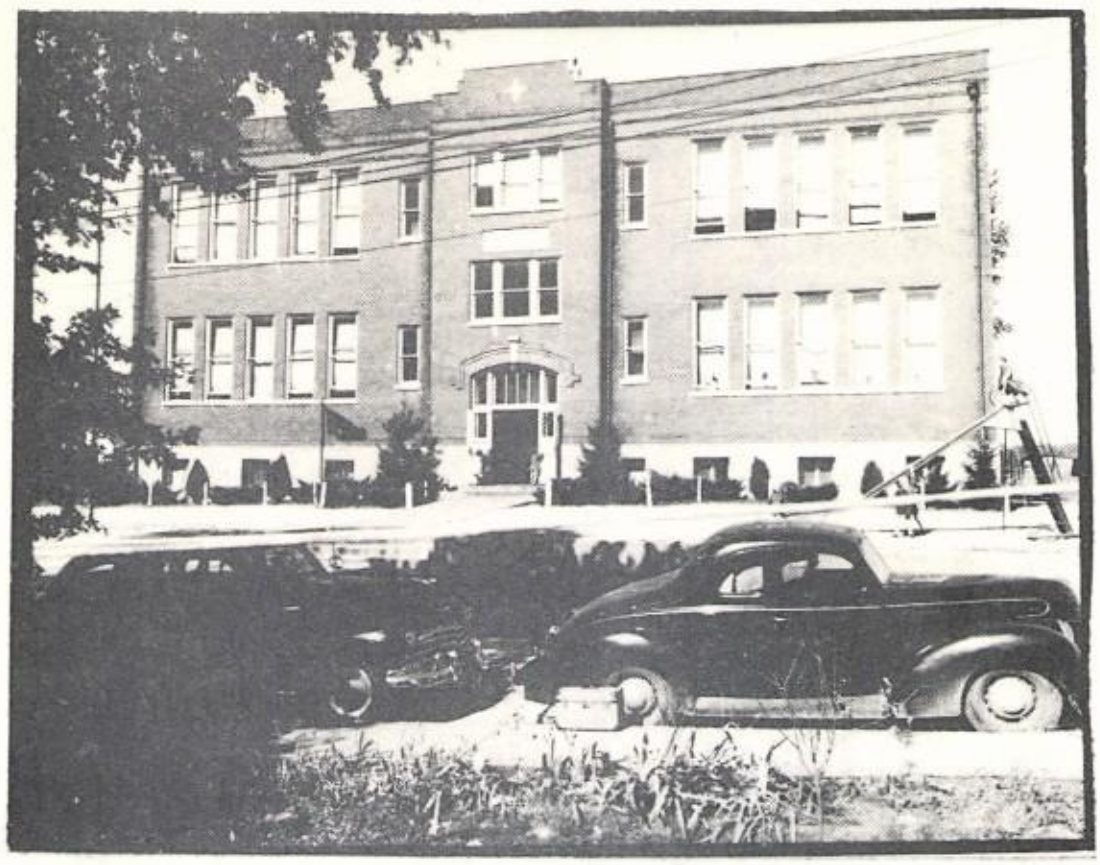
He had in his possessions many gifts which he received in grade school years for having no absent marks on his report cards.

He planned a career in the Navy after his graduation.

He passed away at 6:30 a.m. October 24th on a Sunday morning in the St. Edwards Hospital.

Services were held at the Christian Church, October 26th with Rev. Everett Wright officating. The girls of the class acted as flower girls and the boys were pall bearers. Burial was in the Marengo Cemetary.

ADMINISTRATION



MARENGO HIGH SCHOOL

The doors are closed, silence reigns in the halls of M. H. S., and another class has left its footprints in the sands of time.

Our school days are past, but in the following pages we have tried to set down many of the things that have gone toward making these past four years happy ones.

We are as ships about to sail forth on the stormy sea of life. In the coming years of toil and strife, may this year's Annual serve as a reminder of happy moments.

THE PROPHECY

"Remember wnen we used to shime down on that little class of '49?" said one twinkling, bright star to the other as they sat side by side on a soft cloud.

"Yes," replied the other star. "Those were the good ole days."

"Let's get down to earth and see what each member of the class is doing now," chorused the two little stars.

"Look! There's 'Abe Denton' and his wife, the former Bea Broughton, settling down for a quiet evening at home. That's all they can afford to do until 'Abe' receives his check from the government (unemployment compensation, you know). Did we mention a quiet evening at home? O. K. if you want to call it that but 'Little Abe' and 'Little Abie' are here to change our minds. Just in case the twins don't make the ball team, they are exercising their lungs to create a cheering section all their own."

"As we journey on we pass a new parking lot. Incidentally the parking lot adjoins 'Jonar's Used Airplane and Helicopter Lot'. Bobby Lockwood struck oil up on Quarry Hill. He decided to grease all the old jalopies he could find; add a piece here and a piece there. The idea caught on and now Jonar has retired and left thebusiness to his brother, Richard."

"Now back to the parking lot. That bright green helicopter belongs to Ivan Engleman. Although Ivan is a confirmed bachelor, we notice he has left the motor running and soom Ivan and Nancy Fryer dash from the doorway of the Stanley Hotel and climb into the helicopter. In the confusion we noticed something peculiar about Nancy's appearance and at second glance notice she still has on her maid's uniform. Instead of using her college education for a career, she decided to be a personal maid to her old schoolmate, Mae Hendricks, the world's best acrobat. Mae's biggest sensation was havingthe 125 foot pole she was climbing snap in two in mid-air. She fell into the arms of the world's fatest fat man and every thing turned out well."

"As we pass the newspaper stand we pause for a moment to glance at the county paper. On page three we notice a column entitled 'Advice to the Love-lorn-by--T-O-N-I Toney'. Dale was fashioning his career when he reported on the Cavemen team of '49, but we certainly didn't expect it to come to this. It is rumored that Dale gets part of his advice from Melvin Froman, the Voice of Experience. We don't doubt but what Dale has a great deal of experience of his own."

"Here's an Item on the first page; we almost missed it: "Local Girl Makes Good"--Dorothy Pierson is now slinging popcorn in the lobby of Hotel Vanderbilt in New York. We'll have to look into Dorothy's past and see what all has happened since 1949. After graduation Dorothy journeyed to Depauw and married her old beau Paul Lynch. Of course, since there is no theater in Depauw the future there didn't seem bright to Dot so they moved to Detroit and from there to New York. At last Dot's dreams came true when she applied for the job at the Hotel Vanderbilt. Now Dot is popping and selling popcorn while Paul cuts tiny holes in the bags just like in the Rialto Theater at Marengo.

"Melvin Froman decided to try married life but just couldn't decide with whom he would like to spend the rest of his life. At this date he has had four wives and three divorces. His first wife was the famous Suzie Grey, who is currently appearing at the Gentry Burlesque Theater in Louisville. His second was an African princess but her father ordered him beheaded when he discovered Melvin wasn't really Prince Zaroff of Zarathustra. Luckily Melvin escaped to France and there married a peasant girl who died of a broken heart after Melvin sailed for America. When he heard of her death, he rushed down to Marengo and proposed to Maryan Williams. They are now studing to be missionaries to go to Africa to convert his second wife's father. Since graduation Maryan has taken a course on 'Child Phsycology' and has for two years been Dean of Women at the Orphans Home but readily resigned her position when Melvin proposed.

"Beulah Key always did have her eyes wide open just in case a sailor should appear on the scene. She recently married a navy captain-but more recently the captain retired and they went 'sailing, over the bounding main' on their own "Slow Boat to China." The last we heard from them they were in Naking operating a flea circus with a large number of fleas."

"Ellen Bullington became a model and designed her own clothes until her first husband, head of a department store, died three months after their marriage. She recently married her old flame, Floyd Bell and they decided to go to Texas, so they took the little red ford--which is now the sole property of Glenn--and started on their way. The trip was uneventful except for two-hundred and one flat tires, four head on collisions, eight bullet holes in the gas tank, and a headlight burned out. When they reached the state line they took the car apart, wrapped it, and sent it back to Glenn. Horse-back riding made Ellen bow-legged so she gave up modelling and turned all her attention to raising cattle in hopes of getting enough money to buy a used car and return to Marengo. If Ellen's listening, here's a tip for her, you can now get a used 1950 helicopter for next to nothing at 'Jonar's Used Helicopter Lot'. Easy terms--$400,000.98 down and 42½¢ annually for life."

"Arthur Green is happily married to Jewell Wyman (as if you didn't know) and they are busy raising a fine bunch of future basketball players. The first set of twins will make fine guards and their third son is a sure fire center. At present they are living in Africa near the Congo River where Arthur is gathering material for his comic strips."

"Vera Crecelius , after graduating, was planning on taking a business course and being a stenographer but her career just didn't turn out that way. She went to college and automatically became a school teacher. She isn't married yet and says she is through with men forever but-you never can tell."

"When the Cavemen of 1970 go to the state finals, their coach, Linneaus Wheeler, will lead them safely to victory, since he keeps them thriving on cherry cider instead of the current favorite lemons. Lennie has never married, but neither has his old flame, Ruthie Huffman, so who knows what still may be yet to come."

"And what ever happened to Jimmy Nicholson?" the little stars wondered. Then they looked down into the LaGrand Theater and right on the piano bench sat Jimmy playing one of Mozart's compositions. He is now married and there are four little Nicholson's. Jimmy always had such a hard time getting rid of the girls we just couldn't imagine him being married but he has a quiet little quaker wife. She is a lover of music too and so they get along perfectly."

"You've heard of successful businessmen framing their first dollar bill - After Russell Bullington graduater he went to Indianapolis where he worked in a garage as a mechanic. Then he wrote a book on the history of machinery and needless to say his book was a success. After the first edition, he had made more money than Rockefeller ever dreamed of making. He came back to Marengo, married Jackie and built a fine modern home at Crossroads. Russell didn't frame his first dollar - nor his first million--Instead he framed his little blue ford (license number 276-346). Even though it was a precious memorial to his happiness and success he finally relented and sold it to M. G. M. for several million dollars. The money will be used to build a gymnasium for M. H. S. and Russell's

name will be listed with the other great philantrophists of the world."

"Being stars, we should have known Mary Jean Batman landed a job as stewardess for 'American Airlines'. We relly would have known only Mary has a day flight. She always did have her head in the clouds about Irvin Benham."
